JAMIS Prime ERP

The most intuitive and agile Cloud ERP Solution designed for the unique needs of Government Contractors and other project-oriented businesses.

✔ **Compete and Win in Today's Leaner Business Environment**

With unprecedented visibility into your crucial business processes and data, you can discover new opportunities to cut costs and boost revenue. With an ERP designed to facilitate an agile work environment, you'll be able act quickly on those opportunities and out-manuever your competition.

✔ **Maximize Your Profit** Better visibility makes you better at projecting future costs and keeping projects in line with your estimates.

✔ **Simplify Government Contracting** JAMIS Prime was designed for government contractors. It automates many aspects of financial management, project management, customer relationship management and document collaboration. JAMIS Prime is the only ERP designed to give your business the accountability demanded by the government and the flexibility you need to grow.

✔ **Make DCAA Compliance Easier** Built-in reporting and billing features help you meet all DCAA requirements, greatly reducing the chances that you could lose a contract or have payment delayed due to a lack of compliance.

✔ **Optimized For Mobility** The way people work and access information has changed with the web, social media, and mobile devices. With JAMIS Prime you'll have instant and direct access to the information you need whether you're in the office, on the road, or at home.

✔ **Powerful Dashboards at Your Fingertips** Gain complete visibility into your business with an application designed to bring essential business intelligence directly to you. Dashboards present summarized views of key information using tables, pie charts, and other graphics. Content on all dashboards is dynamically generated to provide real-time results across an entire organization.

Finance / Project Accounting Suite

Built from the ground up to be DCAA-compliant, JAMIS Prime’s Finance/Project Accounting Suite is designed to meet the critical accounting, back-office, and operations needs and challenges of the most demanding government contractors while offering real-time insight into key contract and project management performance metrics.

Includes:

- ✓ General Ledger
- ✓ Accounts Receivable
- ✓ Accounts Payable
- ✓ Cash Management
- ✓ Tax Management
- ✓ Project Costing
- ✓ Project Billing
- ✓ Indirect Rates Management
- ✓ Project Labor Distribution
- ✓ Contract and Change Order Management
- ✓ Dashboards and Reports
- ✓ Document Management
- ✓ Time & Expense Management

Fixed Assets Suite

This module will provide complete visibility into your assets and depreciation calculations. Using this module, you can add fixed assets from AP purchases, import them from a file, or add them individually. Depreciation schedules are automatically created and detailed reports are available. The Fixed Asset module will also contain features and functionality to control government-owned property in accordance with Federal Acquisition Regulation 45.000.

Includes:

- ✓ Fixed asset tracking
- ✓ Pre-defined depreciation methods
- ✓ User-defined depreciation methods

Business Planning Suite

JAMIS Prime’s Business Planning Suite supports company-wide strategic business scenario planning as well as routine estimate at completion updates. The built-in rate application is a powerful tool to analyze possible future business models. Scenario planning gives you the freedom to explore different options, improving the effectiveness of your business planning process.

Includes:

- ✓ Flexible budgeting and forecasting tools for both existing and planned new business
- ✓ Automatically consolidates actual and forecasted cost-to-complete data to support the estimate at completion (EAC) process

Human Capital Management Suite

Manage the employee lifecycle strategically and effectively with a comprehensive, web-based solution. This powerful application will allow you to manage applicants, onboarding, hiring, performance, compensation, compliance, benefits, and more.

Includes:

- ✓ Applicant Tracking & Onboarding
- ✓ Open Enrollment & Benefits Administration
- ✓ Compensation Management
- ✓ Performance Management
- ✓ Learning Management
- ✓ Compliance Reports

Distribution Suite

The Distribution Management Suite is designed to manage the complexities of distribution, such as requisitions, purchase orders, tracking inventory, filling orders, and supporting customers. Our distribution software is integrated with our core financial modules to deliver real-time measurements of your procurement activity. The JAMIS Prime Distribution Suite provides you with the tools you need to pass a Contractor Purchasing System Review (CPSR).FAR, and CAS requirements.

Includes:

- ✓ Project and Company Inventory Management
- ✓ Sales Order Management
- ✓ Purchasing Management
- ✓ Requisition Management

Customer Relationship Management Suite

The CRM Suite makes it easy, engaging, and affordable to connect with your customers. From tracking prospect calls and meetings to updating sales forecasts, it’s all readily available for you and your team—both in the office and in the field

Includes:

- ✓ Lead and Contact Management
- ✓ Business Account Management
- ✓ Case Management
- ✓ Opportunity Management
- ✓ Mass Mailings, Questionnaires, Campaigns

Corporate Overview

JAMIS has been a leader in providing comprehensive and cost-effective solutions for the most respected names in government contracting. Companies large and small rely on JAMIS to provide detailed visibility into all of their projects. These contractors know that JAMIS was founded by government contractors and has a keen understanding of the contracting business. They utilize JAMIS software to collect, track, and invoice billions of dollars every year.

The world of today's government contractor has become considerably more complex and demanding. With a seasoned staff of professionals who know the ins-and-outs of the government contracting industry, JAMIS is uniquely positioned to provide scalable solutions that enable compliance with the requirements of the Defense Contract Audit Agency (DCAA), Cost Accounting Standards (CAS) and Federal Acquisition Regulations (FAR). The result: JAMIS customers can focus their attention on growth and profitability, not the details of complying with ever-changing regulations.
