

JAMIS[®]
Prime ERP

The most intuitive & agile Cloud ERP Solution
designed for government contractors

JAMIS Prime ERP is the clear choice for service-based government contractors, not-for-profits, and other project-based organizations.

JAMIS Prime ERP is an innovative cloud platform that allows you to work anywhere on any device, deploy the solution SaaS or on-premises, and involve everyone in the organization – the essential competitive advantage in today's challenging and cost-conscious work environment.

We invite you to schedule a Prime ERP demo—and see the new product everyone is raving about.
